

Student Retention 2016/2017

Round Oak offers a wide range of opportunities and studies for our sixth form students and is able to offer an individual timetable specific to our individuals no matter what their needs or interests are. Sixth form prepares our students for moving into employment, apprenticeships or college. In having these opportunities we are able to retain our higher ability students with us for longer rather than them looking to leave and move onto college. We prepare them to move into Employability and an independent life rather than college. Below is a breakdown of our student retention:

Destination Information for Leavers 2016

In the summer of 2016 Round Oak had 25 students leave the school. All of them were ready to move onto

further education, supported work experience or employment. Below is a chart showing a breakdown of what those students are doing currently.
